

August, 2018

Dear Parent/Guardian(s),

Welcome to the 2018-2019 school year! My name is Tyler Lake and I will be your student's math teacher for the year. I am excited and appreciative for this opportunity to work with your son/daughter. The purpose of this letter is to introduce you to my class.

There are several resources you may find helpful for my class. PowerSchool is a resource you can use to view your son/daughter's current grades, assignments, attendance, etc. Username and password information is available through the CCHS office. Khanacademy.org is a very helpful website that contains numerous math and science instructional videos for students who need more explanation of concepts. Help is available from the math staff, including myself, after school on Tuesdays from 2:35 p.m. - 3:35 p.m. Student tutors are also available through the National Honor Society. Please emphasize to your son/daughter the importance of getting help early. Math classes can become overwhelming quickly. Asking for help early is a major key to success.

Please feel free to contact me at any time. Students benefit most from open communication between parents and teachers. The best way to reach me is via email at Tyler.Lake@myeagles.org. I can also be reached between 9:43 a.m. - 10:33 a.m., as well as before and after school at 592-6634.

You can find all course information on my website at www.cchslake.weebly.com. On there you will find a course syllabus, which details the rules, expectations, grading and supplies needed for this course. In addition to the syllabus you will find a page that needs to be signed and returned for your son/daughter's first assignment.

I look forward to an exciting and successful school year with you and your son/daughter. Thank you for your support.

Sincerely,

Tyler Lake
